## Medical insurance coverage in Italy

We recommend that each foreign student applies for registration at the national health care provider during his/her stay in Italy ("Voluntary registration at the national health care provider"). Due to the registration and after the payment of an annual fee the foreign student will be treated equal to an Italian citizen regarding health care. This type of health care includes the right to a basic health care physician and free care in case of a medical emergency.

Students who have no other income than the scholarship pay 149,77 EUR for the registration.

Following documents must be submitted in order to register at the national health care provider:

- copy of the valid stay permit
- self certification
- copies of certificates issued by foreign offices
- proof of enrolment at a university and confirmation of the receipt of a scholarship
- Italian tax code

Address where you can apply for registration at the national health care provider:

Gesundheitsbezirk Bozen/ Comprensorio sanitario di Bolzano  
Horazstr./ Via Orazio, 49  
Tel.: 0471/909122
