## Residence Permit (Carta di Soggiorno)

As of April 11, 2007 EU citizens who would like to stay longer than three months in Italy or another EU member State, must no longer apply for the residence permit. They must, however, enlist at the registration office of the community of stay. For a stay period less than three months, no formalities are required.

In order to enlist it is necessary to present a valid identity card or passport.

Citizens of Non-EU Member states still have to apply for the stay permit within 8 business days of their entrance in Italy.

They present the application for residence permits at post offices, using the kit available at these offices.

Further information is available from the following websites:
