

Publication types in BORIS, BIA and CINECA loginmiur.cineca.it

This document aims at supporting researchers during the data entry process. The Bozen-Bolzano Research Information System (Boris) has different types of publication, which are suitable to archive and describe in the best way scientific outputs. We would like to recommend a careful choice of the publication type, in order to improve and facilitate the process of validation and dissemination of the research outcomes.

For each type is indicated the corresponding category in loginmiur.cineca.it (named here CINECA) and in the public portal Bozen-Bolzano Institutional Archive (BIA).

In case of doubts or questions, please do not hesitate to contact us at library@unibz.it. We will be glad to support you.
