Career Service Report
2022
As part of its institutional role, the Free University of Bozen-Bolzano promotes curricular and extra-curricular internships which participants' need to complete their academic training. The purpose of the internships is to put students in contact with the world of work, in order to create a link between theory and practice. In addition, direct experience with the world of work allows interns to acquire knowledge of future professional activities and to critically reflect on career choices.

In fact, a defining element of the internship is precisely that of reflection. Reflecting on and understanding the meaning and connections of life experiences is fundamental to understanding a person's wants, needs and the context in which a person acts. As well as identifying one's own limits and potential, reflecting on life experiences leads to acquiring hard skills. Knowing the organizational dynamics of work and critically reflecting on them helps to develop one's professional future.
Faculty of Economics and Management
Faculty Science and Technology
Faculty of Design and Art

Extracurricular internship experiences / Graduates

19 Extracurricular internships

12 Faculty of Economics and Management
2 Faculty Science and Technology
5 Faculty of Design and Art

8 Abroad
8 Venetien
1 Lombardy
2 Bozen-Bolzano
The program involves a financial contribution to partially cover the expenses of students or recent graduates during an internship in an EU (European Union) country. The number of internships activated with an Erasmus + Traineeship grant in 2022 were 37.
Career Fair
The Career Fair offers local companies and institutions abroad an attractive forum to make contact with students and prospective graduates. The aim of this event is to give students and graduates support with their first steps into the world of work and to give them the opportunity to obtain useful information about the career entry opportunities. It is also possible to retrieve helpful information about internship opportunities.

Participants: 210

Meet the company
During company presentations, the Career Service connects students and graduates with companies that are looking for new collaborators as well as trainees.

Participants: 133

Individual consultations
At any time, students and graduates can book an individual consultation for a CV check, to receive suggestions and information on job interviews, internship experience abroad or to better prepare for an internship or job placement.

Individual consultations: 178

Alumni talks
Graduates share their work experience and life choices after graduation to inspire or give useful advice to students and graduates. They create a favorable context for networking among graduates, also involving students, to discuss opportunities for professional and personal growth.

Participants: 292

Seminars and workshops
Students and graduates are invited to take part in free meetings on application related topics such as CV writing, job interviews, digital reputation and soft skills.

Participants: 217

Work orientation meetings
The career orientation meetings are always targeted at students on a specific course. The guests, who are asked to share their experiences, are professionals from different sectors. The guests provide a complete overview of their profession to make students and undergraduates better acquainted with employment prospects.
